

RIDGELINE

14 route puzzles. Nine mountain-wall modules. One unbroken walk from G1 to G2.

Begin with the numbered tray

Remove the nine pieces. On the next page, find the engraved grid, cell numbers and north arrow. Then try the guided two-piece starter.

174 x 182 x 63 mm, including the north tab. Digital prototype; physical printing, fit and play have not been tested.

SET UP THE BOARD

Every space has a number

1 Turn the tray so the N arrow points away from you. This is N / TOP in every challenge diagram.

2 Read cells 0-8 from left to right, top to bottom. Each square takes one piece. The number is covered when that space is filled.

3 Copy the seven fixed pieces on the next page. Leave cells 0 and 1 empty for A and S.

The lines guide placement; they do not lock the pieces. Keep the tray flat and lift each piece clear before turning it.

Bridge the low terrace

N / TOP

PLACE

Copy these seven fixed pieces.
Empty cells 0 and 1 await A
and S. Cells count 0-8, left to
right, top to bottom.

TRY

A must turn from cell 3 toward
cell 1. Which end of S meets its
low terrace?

CHECK

Match both direction and level
at every join. Trace G1 to G2
through all nine pieces.

Turn A and S by hand above the cradle, then lower them upright. Never flip a piece. This guided starter fixes seven pieces; the R01 challenge later uses fewer clues. The answer is in the separate solutions section.

Know your wall

One each: A B C D S T U G1 G2. Match the piece IDs. The diagram digits show height: 0 low, 1 middle, 2 high. A line reaches the side where the real wall opens. N marks the top of each diagram.

Rotate in quarter turns; do not flip. T has identical ends, so its half-turn is equivalent. S and U have different-height ends, so reversing either changes the puzzle.

Routes 01-04

R01

Fix G2, G1, A, B. Fill every blank.

R03

Fix G2, G1, A. Fill every blank.

R02

Fix G1, G2. Fill every blank.

R04

Fix G2, G1, A. Fill every blank.

Routes 05-08

R05

N / TOP

Fix G1, G2, A. Fill every blank.

R07

N / TOP

Fix G2, G1, A, D. Fill every blank.

R06

N / TOP

Fix G2, G1, A, B. Fill every blank.

R08

N / TOP

Fix G1, G2, A. Fill every blank.

Routes 09-12

R09

N / TOP

Fix G2, G1, A, D. Fill every blank.

R11

N / TOP

Fix G1, G2, A, T. Fill every blank.

R10

N / TOP

Fix G1, G2. Fill every blank.

R12

N / TOP

Fix G1, G2, A, U. Fill every blank.

Routes 13-14

R13

N / TOP

Fix G1, G2, B. Fill every blank.

R14

N / TOP

Fix G2, G1, B. Fill every blank.

HOW TO PLAY

Choose any route. Copy its fixed clues exactly, including orientation. Use each remaining piece once. Every open wall end must meet another open end at the same height. No wall end may point outside the cradle.

WIN

Trace one continuous route from G1 to G2 visiting all nine modules. Separate loops do not count.

RESET

Lift out the pieces, check all nine IDs, then set the next challenge. There is no time limit or score.

Answers 01-04

ONE SET, FOUR ROUTE SHAPES

These 14 challenges cover all 14 solution classes under whole-board quarter turns. There are 56 oriented complete solutions, or 14 when those board rotations are treated as equivalent.

The routes have four undirected planar shapes; tracing specifically from G1 toward G2 distinguishes six directed shapes. Each challenge has exactly one solution with its fixed clues.

R14

N / TOP

G1 6 > 3 > 0 > 1 > 4 > 7 > 8 > 5 > 2 G2

TWO USEFUL MISTAKES

A join is only half the test

N / TOP

HEIGHT MISMATCH

Start with the R01 answer, then reverse S by half a turn. Its direction still aligns, but the low and middle ends swap. Both seams, 0-1 and 1-2, differ by 12 mm. Turn S back to repair.

N / TOP

DISCONNECTED LOOP

Every local join in this board matches. Yet the pieces form separate routes. Trace from G1: it cannot visit every module before G2. Rearrange; a matching loop is not a win.
